## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The indicated allowability of claims 7 and 17 is withdrawn in view of the newly discovered reference(s) to Japanese Patent Application 2002-67629 A and South Korean Patent Application 2002-92667 A. Rejections based on the newly cited reference(s) follow.

### ***Specification***

2. The disclosure is objected to because of the following informalities: in new paragraph 0031 of the specification there appears to be a typographical error: the two commonly assigned applications recited therein have different titles but the same serial number.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

4. Claims 1, 3, 4, 8, 11, 12, 14, and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Application 2002-67629 A.

See the embodiment of Figure 4 and example in the translation.

5. Claims 1, 3, 4, 7, 9, 14, and 15 are rejected under 35 U.S.C. 102(a) as being anticipated by South Korean Patent Application 2002-92667 A.

Art Unit: 1733

See the embodiment of Figure 2 in the translation.

***Allowable Subject Matter***

6. Claims 5, 6, 10, and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
